

FOLLOW ME! Technology develops CAM Software that generates optimal input data for milling as well as additive manufacturing using digital models. We are focused primarily on the development of *hyperDENT*® - an automated solution for the production of dental prostheses. *hyperDENT* is a desktop application in C++.

We are a small, yet international company with subsidiaries in Europe, America and Asia.

In our effort to enhance our desktop application with cloudbased services we would like you to join our development team as a:

## Full Stack Node.js and React Developer (m/f/x )

Your tasks:

- Responsibility for development and maintenance of webbased services
- Programming, using modern and appropriate web technologies
- Coordinating external suppliers
- Documentation of work results

Your qualification:

- 3+ years experience in software development (JavaScript, HTML5, CSS3)
- Experience in Node.js
- Proficiency in SQL
- Experience in React and any kind of UI components
- Experience in building scalable APIs for Web and Mobile
- Understanding of Component-Based Design.
- Willingness to work in an Agile environment

We offer you:

- Flexible working hours (as per agreement)
- Predominantly Remote work
- A position in a globally active company
- A pleasant work environment in a small, cooperative team
- Creative freedom
- Attractive opportunities for further development

Please send your application documents per email to: [career@fm-dental.com](mailto:career@fm-dental.com)

You can find additional information about FOLLOW-ME! Technology Group and *hyperDENT*® at: [follow-me-tech.com](http://follow-me-tech.com)

We look forward to receiving your application.

## *hyperDENT*
