

FOLLOW ME! Technology develops CAM Software that generates optimal input data for milling as well as additive manufacturing using digital models. We are focused primarily on the development of *hyperDENT*[®] - an automated solution for the production of dental prostheses. We are a small, yet international company with subsidiaries in Europe, America and Asia.

In support of our development office in Berlin we would like you to join our team as a

Software Developer for GPU based 3D Algorithms in C++(m/f/x)

Your tasks:

- Development and Maintenance of the Graphical Framework
- Development and Maintenance of GPU based Algorithms in 2D and 3D
- Training and supporting colleagues in regards to GPU based Algorithms
- Product development tasks and responsibilities on a project basis over the whole product lifecycle
- Programming in C++
- Documentation of work results

Your qualification:

- Completion of a degree in computer science or mathematics (or a comparable course of study)
- Several years of experience in area of responsibility
- Analytical mindset and pronounced interest in solving geometric tasks
- Sound knowledge of C/C++ and multithreading
- OpenGL or OpenCL experience is required
- Structured, quality and results-oriented work approach
- Ability to work well in a team, but also independently and with personal responsibility

We offer you:

- Flexible working hours (as per agreement)
- Remote work available
- A position in a globally active company
- A pleasant work environment in a small, cooperative team
- Creative freedom
- Attractive opportunities for further development

The employment location is our development office in Berlin:
Stresemannstr. 21
10963 Berlin

Please send your application documents per email to: karriere@fm-dental.com
