

FOLLOW ME! Technology develops CAM software that generates optimal input data for milling as well as additive manufacturing using digital models. We are focused primarily on the development of *hyperDENT*<sup>®</sup> – an automated solution for the production of dental prostheses. We are a small, yet international company with subsidiaries in Europe, America and Asia.

In support of our development office in Berlin, we would like you to join our team as a

## Software Developer - Product Development C#/.NET using WPF/Windows Forms (m/f)

### Your tasks:

- Maintenance and further development for our products and software components with a focus on the user interface (UI) in C# / .NET
- Recording, discussion and documentation of software requirements
- Active participation in the planning and creation of UI concepts and their implementation into a UI framework
- Documentation of work results
- Involvement in various tasks throughout the complete software lifecycle

### Your qualifications:

- Completion of an apprenticeship as an IT specialist/application developer or a degree in computer science, computational visualistics or a comparable course of study
- Sound knowledge of and practical experience with C# and the .NET framework (required)
- Project experience in the development of GUIs, preferably using WPF or Windows Forms
- Enjoyment in designing and developing GUIs and contributing your own ideas
- C++ programming language knowledge (advantageous)
- Structured, quality and results-oriented work approach
- Ability to work well in a team, but also independently and with personal responsibility
