

FOLLOW ME! Technology develops CAM software that generates optimal input data for milling as well as additive manufacturing using digital models. We are focused primarily on the development of *hyperDENT*<sup>®</sup> – an automated solution for the production of dental prostheses. We are a small, yet international company with subsidiaries in Europe, America and Asia.

In support of our sustainable growth, we would like you to join our team as a

## Product Manager *hyperDENT*<sup>®</sup> (m/f)

As Product Manager, you will be significantly involved in the designing of our CAM software. You will analyze the current state of our products in comparison with customer requirements, develop your own innovative ideas and prepare them for decision-making within the company.

### Your tasks:

- Generation and implementation of new product ideas
- Maintenance of existing functionalities over the complete life cycle
- Analysis of global customer requirements
- Definition of software requirements in close cooperation with the development team
- Sales support for key projects
- Provision of product training courses
- Cooperation with internal and external partners

### Your qualifications:

- Degree in Computer Science, Mechanical Engineering or comparable degree
- Several years of practical experience in milling, particularly milling of dental indications
- Experience implementing a 3D CAD/CAM system, ideally *hyperDENT*<sup>®</sup> and/or *hyperMILL*<sup>®</sup>
- SLM or additive manufacturing experience
- Ability to work well in a team, good communication skills as well as an independent, structured and customer-oriented work method
- Very good analytical skills
- Good language skills in German and English
