

FOLLOW ME! Technology develops CAM Software that generates optimal input data for milling as well as additive manufacturing using digital models. We are focused primarily on the development of *hyperDENT*[®] - an automated solution for the production of dental prostheses. We are a small, yet international company with subsidiaries in Europe, America and Asia.

In support of our development offices in Berlin or Vienna, we would like you to join our team as a

Software Developer - Product Development C++/ C#/.NET using WPF (m/f)

Your tasks:

- Maintenance and further development for our products and software components
- Collection, discussion and documentation of software requirements
- Project responsibility for subcomponents of our products
- Active participation in the planning and creation of UI concepts and their implementation into a UI framework
- Documentation of work results
- Involvement in various tasks throughout the entire software lifecycle

Your qualifications:

- Completed degree in computer science or mathematics (or comparable course of study)
- 2-3 years' experience in 3D software development
- Sound knowledge of and practical experience with C# and the .NET framework (required)
- Project experience in the development of GUIs using WPF (required)
- Enjoyment in designing and developing GUIs and contributing your own ideas
- C++ and 3D project experience (advantageous)
- Analytical mindset and enthusiasm for geometrical and graphical tasks
- CAD/CAM development experience (advantageous)
- Structured, quality-driven and results-oriented work approach
- Ability to work well in a team, but also independently and with personal responsibility

We offer you:

- Flexible working hours (as per agreement)
- A position in a globally active company
- A pleasant work environment in a small, cooperative team
- Creative freedom
- Attractive opportunities for further development
